edubily GmbH Leidingerstraße 10 66798 Wallerfangen

Seite 1/1

Probenahme: edubily GmbH Leidingerstraße 10 66798 Wallerfangen Probenehmer: Auftraggeber

Kunden-Nr.: S11660089

Eingangsdatum: 06.04.23 Ausgangsdatum: 27.04.23

Prüfbericht Proben-Nr.: 23464849C

Bezeichnung: Olivenblatt-Extrakt Charge: 6049911

Haltbarkeit: 23.01.2025

| Untersuchungen | Ergebnis | Richtwert | Grenzwert |
|---|--------------|-----------|-----------|
| Cadmium (Cd) Methode: DIN EN ISO 17294-2, ICP-MS; Untersuchung durchgeführt von 1) | <0,02 mg/kg | | 1,0 mg/kg |
| Blei (Pb) Methode: DIN EN ISO 17294-2, ICP-MS; Untersuchung durchgeführt von 1) | <0,05 mg/kg | | 3,0 mg/kg |
| Arsen (As) Methode: DIN EN ISO 17294-2, ICP-MS; Untersuchung durchgeführt von 1) | 0,08 mg/kg | | |
| Quecksilber (Hg) Methode: DIN EN ISO 17294-2, ICP-MS; Untersuchung durchgeführt von 1) | <0,005 mg/kg | | 0,1 mg/kg |
| Pestizide (siehe Anhang) Methode: § 64 LFGB L 00.00-115, mod.: 2018-10; Untersuchung durchgeführt von 2) | siehe unten | | |
| Anthrachinon Methode: § 64 LFGB L 00.00-115, mod.: 2018-10; Untersuchung durchgeführt von 2) | 0,018 mg/kg | | |
| Carbendazim Methode: § 64 LFGB L 00.00-115, mod.: 2018-10; Untersuchung durchgeführt von 2) | 0,052 mg/kg | | |
| Carbendazim/Beomyl, gesamt Methode: § 64 LFGB L 00.00-115, mod.: 2018-10; Untersuchung durchgeführt von 2) | 0,052 mg/kg | | |
| Thiabendazol Methode: § 64 LFGB L 00.00-115, mod.: 2018-10; Untersuchung durchgeführt von 2) | 0,019 mg/kg | | |

| Unt | ersuchung durchgeführt von |

Die Bestimmungsgrenzen der Wirkstoffe liegen zwischen 0,001 und 0,010 mg/kg. Je nach Art der Matrix können höhere Bestimmungsgrenzen vorliegen. Dies gilt insbesondere für Oleoresine. Das Wirkstoffspektrum wird entsprechend aktueller Anforderungen laufend geprüft und kann ggf. angepasst werden.

Stand: 05.10.22
